DETAILED ACTION

Allowable Subject Matter

1. Claims 16, 19, 20-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As to claims 16, 21 and 22, the prior art of record, Adan, does not disclose where the correlation being upon the values in all memory array locations that correspond to overlap between the comparison frame and the other of the reference frame or the sample frame. Adan in Figs. 3A-3E discloses a smaller sample area. Adan disclose a cross correlation between the pattern in the sample area and the pattern for the entire viewing or search area. Thus Adan only samples a small subset of the entire viewing area whereas in Claims 16, 21 and 22, the correlation is being upon values in all memory array locations.

As to claim 19, the prior art of record, Adan, does not disclose where an arithmetic comparison mechanism coupled to the plurality of correlation values, and wherein the motion signals are not output to the computer system whenever a correlation surface described by the plurality of correlation values fails to exhibit a selected curvature.

As to claim 20, the prior art of record, Adan, does not disclose where an arithmetic comparison mechanism having inputs coupled to the motion signals and wherein the motion signals are not output to the computer system whenever the motion signals indicate a velocity that exceeds a preselected limit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
